Tactical Professor (http://tacticalprofessor.com) Autoloading Pistol Suitability Checklist

Load a magazine to full capacity. Load the fully charged magazine into the pistol and chamber a round. Keep the trigger finger above the trigger guard while manipulating the pistol. Manipulate the controls of the pistol. Keep the trigger finger above the trigger guard while manipulating the pistol. If the pistol has a decocker, decock the pistol after loading it. Then, disengage it if it is also a safety. If the pistol has a safety, engage it, and then disengage it. Remove the loaded magazine from the pistol. Engage the slide stop while pulling the slide to the rear to safely eject the round from the chamber. The muzzle must remain pointed downrange during the entire unload sequence. Inspect the chamber visually and physically (with a finger) to be sure it is unloaded. Let the slide go forward. Shoot the pistol. Load with magazines of six rounds only. If the pistol has a decocker, decock the pistol after each String and then disengage the decocker if it also is a safety. If the pistol has a safety that is NOT a decocker, start each string with the safety engaged. Start each String with the trigger finger above the trigger guard. Fire six shots at each of four distances (Stages), 3 yards, 5 yards, 7 yards, and 10 yards. Three Yards. Should be fired with the Primary Hand Only, i.e., One Handed, starting from Low Ready. String 2: Fire Two shots, follow-through, and return to Low Ready. String 3: Fire Three shots and follow-through. Record your hits and then cover them with masking tape. Score at Three Yards Five yards. Start with the chamber empty and a six round magazine inserted. Attempt to fire the first shot on an empty chamber. After the click, tap the base of the magazine, cycle the slide, and then fire one shot. Minor Stoppage Clearance String 2: Fire Two shots, follow-through, and return to Low Ready. String 3: Fire Three shots and follow-through. Record your hits and then cover them with masking tape. String 3: Fire Three shots and follow-through. Record your hits and then cov	Load the pistol.	
Manipulate the controls of the pistol. Keep the trigger finger above the trigger guard while manipulating the pistol. If the pistol has a decocker, decock the pistol after loading it. Autoloading Pistol Suitability Checklist (p2)

Seven yards. Start aimed at the target with the slide locked open and a six round magazine in the pistol. Eject the magazine onto the table, pick it up, insert it into the pistol, release the slide, and then fire three shots. **Emergency Reload** String 1: Fire Three shots, follow-through, and return to Low Ready. String 2: Fire Two shots, follow-through, and return to Low Ready. String 3: Fire One shot and follow-through. Record your hits and then cover them with masking tape. **Score at Seven Yards Ten yards.** Insert a six round magazine and leave the chamber empty. Starting from Low Ready, raise the pistol to the target and attempt to fire the first shot on an empty chamber. After the click, remove the magazine, tuck it in your waistband, cycle the slide three times, retrieve the magazine, re-insert it, and then fire three shots. Major Stoppage Clearance String 1: Fire Three shots, follow-through, and return to Low Ready. String 2: Fire Two shots, follow-through, and return to Low Ready. String 3: Fire One shot and follow-through. Record your hits and then cover them with masking tape. **Score at Ten Yards Total Score**
